NCIE Funding & Resource Mobilisation Framework

NCIE FUNDING & RESOURCE MOBILISATION FRAMEWORK

National Council for Innovation & Entrepreneurship (NCIE)

Framework Area: Funding, Resource Mobilisation, Institutional Support & Financial Sustainability

---

1. INTRODUCTION

The **NCIE Funding & Resource Mobilisation Framework** establishes a structured approach for identifying, developing, mobilising and managing financial and non-financial resources required for the implementation and expansion of NCIE programmes and institutional initiatives.

The framework is designed to support programmes relating to **innovation, entrepreneurship, skill development, Artificial Intelligence and digital technologies, youth leadership, student development, institutional capacity building, incubation, startup development and social-impact initiatives**.

NCIE may mobilise resources directly where legally and operationally appropriate and may also **facilitate eligible institutions, projects and programme stakeholders in accessing suitable Government, CSR, industry, philanthropic, institutional and ecosystem funding opportunities**.

---

2. VISION

> **To establish a diversified, transparent and sustainable resource mobilisation ecosystem that enables NCIE programmes and partner institutions to expand innovation, entrepreneurship, skills, technology and youth-development opportunities.**

---

3. OBJECTIVES

The framework aims to:

- Develop diversified funding and resource channels.
- Reduce dependence on a single funding source.
- Support sustainable programme implementation.
- Facilitate eligible institutional funding opportunities.
- Develop Government and public-sector funding linkages.
- Mobilise CSR and corporate resources.
- Encourage industry-supported programmes.
- Develop philanthropic and development partnerships.
- Facilitate innovation and incubation support.
- Support student innovation and startup development.
- Mobilise technical and knowledge resources.
- Strengthen institutional financial planning.
- Establish transparent financial controls.
- Develop long-term programme sustainability.

4. RESOURCE MOBILISATION PRINCIPLES

NCIE's resource mobilisation activities shall follow:

Diversification

Resources should be mobilised through multiple appropriate channels.

Transparency

Funding proposals and financial commitments should be clearly documented.

Compliance

All resource mobilisation activities shall follow applicable laws, regulations, agreements and institutional requirements.

Purpose-Specific Utilisation

Resources should be utilised for the purposes approved under the relevant project or funding arrangement.

Accountability

Financial and programme performance should be appropriately monitored and reported.

Sustainability

Funding strategies should consider long-term programme continuity.

Impact Orientation

Resources should be directed towards measurable programme outcomes.

5. RESOURCE CATEGORIES

NCIE's resource mobilisation framework covers two broad categories:

A. Financial Resources

- Government programme funding
- Ministry / Department schemes
- CSR support
- Corporate sponsorship
- Institutional contributions
- Philanthropic support
- Grants
- Project-based funding
- Programme participation revenue, where applicable
- Donations where legally permissible
- Other eligible funding mechanisms

B. Non-Financial Resources

- Technology
- Infrastructure
- Equipment
- Expert knowledge
- Mentors
- Trainers
- Research support

- Industry access
- Incubation facilities
- Digital platforms
- Scholarships or in-kind support
- Professional services

6. PROPOSED FUNDING SOURCES

NCIE may explore and develop funding opportunities through the following channels:

1. Government & Public-Sector Programmes

Potential areas:

- Innovation
- Entrepreneurship
- Skill development
- Youth development
- Technology
- Education
- Institutional capacity building

Any Government funding shall be subject to the concerned authority's **eligibility criteria, application process, evaluation, sanction and availability of funds**.

2. CSR Funding

CSR organisations may support eligible projects relating to:

- Education
- Skills
- Innovation
- Entrepreneurship
- Technology
- Youth development
- Institutional development
- Social impact

CSR funding shall be subject to applicable CSR requirements and corporate approval.

---

3. Industry Partnerships

Industry partners may contribute:

- Sponsorship
- Technology
- Equipment
- Experts
- Mentors
- Training
- Infrastructure
- Industry projects
- Programme support

---

4. Institutional Contributions

Partner institutions may contribute:

- Infrastructure
- Faculty resources
- Programme facilities
- Administrative support
- Technology
- Venue
- Human resources

---

5. Philanthropic & Development Partnerships

Where appropriate, NCIE may explore partnerships with eligible:

- Foundations
- Trusts
- Philanthropic organisations
- Development organisations
- Social-impact organisations

6. Innovation & Startup Ecosystem Resources

Potential resources may include:

- Incubation support
- Accelerator programmes
- Startup support
- Mentorship
- Prototype support
- Investor-readiness programmes
- Ecosystem partnerships

7. GOVERNMENT FUNDING FACILITATION

NCIE may facilitate eligible institutions and programme stakeholders in identifying appropriate Government schemes and developing proposals for relevant funding opportunities.

The process may include:

NEED IDENTIFICATION

↓

SCHEME / PROGRAMME MAPPING

↓

ELIGIBILITY ASSESSMENT

↓

PROJECT PROPOSAL

↓

TECHNICAL REVIEW

↓

APPLICATION / SUBMISSION

↓

GOVERNMENT EVALUATION

↓

SANCTION / APPROVAL

↓

IMPLEMENTATION

↓

REPORTING

NCIE shall not represent a Government funding opportunity as sanctioned or guaranteed unless supported by formal documentation from the concerned Government authority.

---

8. CSR RESOURCE MOBILISATION

NCIE may develop CSR proposals aligned with:

- Corporate CSR priorities
- Eligible thematic areas
- Beneficiary needs
- Institutional requirements
- Measurable outcomes

The CSR mobilisation pathway may be:

CSR MAPPING

→ PROJECT CONCEPT

→ DETAILED PROPOSAL

→ CORPORATE DUE DILIGENCE

→ CSR REVIEW

→ APPROVAL

→ AGREEMENT

→ RESOURCE SUPPORT

→ IMPLEMENTATION

→ IMPACT REPORTING

9. INSTITUTIONAL FUNDING FACILITATION

NCIE may support eligible colleges, universities and other educational institutions in developing structured proposals for:

- Innovation Centres
- Incubation Centres
- Innovation Laboratories
- Entrepreneurship Development Cells
- AI & Digital Innovation Facilities
- Student Innovation Programmes
- Startup Development
- Prototype Development
- Faculty Development
- Entrepreneurship Training

Indicative Institutional Funding Requirement

₹5 LAKH – ₹25 LAKH

This range represents an **indicative project-planning and funding-facilitation range**.

It does **not** represent a guaranteed Government grant, Ministry allocation, CSR grant or NCIE-funded amount.

Actual support will depend on:

- Project scope
- Institutional eligibility
- Proposal quality
- Funding source
- Evaluation

- Approval
- Availability of resources
- Applicable guidelines

---

10. STUDENT STARTUP & INNOVATION FUNDING

NCIE may facilitate appropriate support mechanisms for selected student innovators and startups.

Potential support areas include:

- Idea development
- Prototype development
- Proof of concept
- Product development
- Market validation
- Business model development
- Mentorship
- Incubation
- Startup readiness

Indicative Startup Support

Up to ₹5,00,000 per selected startup

Any such support shall be subject to the applicable programme framework, selection criteria, evaluation, availability of resources and formal approval.

---

11. INVESTOR ECOSYSTEM CONNECTIVITY

NCIE may facilitate appropriate ecosystem connectivity for suitable, validated and investor-ready startups.

Potential connections may include:

- Angel investors
- Venture capital organisations
- Corporate investors

- Impact investors
- Startup investment networks
- Other eligible investment ecosystem participants

Indicative Investment Pipeline

Up to ₹25 Crore

The ₹25 crore figure represents an **indicative potential investment pipeline across eligible and investor-ready startup opportunities**, rather than a committed investment fund.

Any investment shall be independently determined by investors following:

- Due diligence
- Commercial assessment
- Financial evaluation
- Market assessment
- Legal review
- Investment negotiations
- Investor approval

12. CORPORATE & INDUSTRY RESOURCE MOBILISATION

Industry partners may support NCIE programmes through:

Financial Resources

Sponsorship and approved project contributions.

Technical Resources

Technology, software, equipment and technical infrastructure.

Human Resources

Experts, trainers, mentors and professionals.

Knowledge Resources

Curriculum, research, case studies and industry knowledge.

Infrastructure

Labs, innovation facilities, training facilities and other approved resources.

---

13. KNOWLEDGE & EXPERT RESOURCE MOBILISATION

NCIE may develop expert networks comprising:

- Academicians
- Researchers
- Industry professionals
- Entrepreneurs
- Startup founders
- Technology specialists
- Innovation experts
- Leadership professionals

These resources may support:

- Training
- Mentorship
- Workshops
- Curriculum development
- Innovation evaluation
- Startup validation
- Expert advisory activities

---

14. RESOURCE MOBILISATION PIPELINE

NCIE may follow a structured pipeline:

RESOURCE MAPPING

↓

PARTNER IDENTIFICATION

↓

OPPORTUNITY ASSESSMENT

↓

PROJECT CONCEPT DEVELOPMENT

↓

PROPOSAL DEVELOPMENT

↓

PARTNER / FUNDER ENGAGEMENT

↓

DUE DILIGENCE

↓

APPROVAL / SANCTION

↓

AGREEMENT

↓

RESOURCE MOBILISATION

↓

IMPLEMENTATION

↓

MONITORING

↓

REPORTING

15. PROJECT PROPOSAL DEVELOPMENT

Funding proposals may include:

- Executive summary
- Background
- Problem statement
- Need assessment
- Objectives
- Target beneficiaries
- Programme design
- Implementation methodology
- Expected outputs
- Expected outcomes
- Impact indicators
- Budget
- Timeline
- Sustainability plan
- Risk management
- Monitoring framework
- Reporting mechanism

16. RESOURCE MOBILISATION FOR COLLEGES & UNIVERSITIES

NCIE may facilitate institutions in preparing project proposals for:

Innovation Infrastructure

- Innovation Labs
- Innovation Centres
- Prototype facilities
- Technology infrastructure

Entrepreneurship Infrastructure

- Incubation Centres
- Entrepreneurship Cells
- Startup support facilities

Student Development

- Innovation programmes
- Entrepreneurship programmes
- Hackathons
- Leadership programmes
- Skill development

Faculty Development

- Faculty training
- Innovation orientation
- Entrepreneurship education
- Technology upskilling

---

17. PROGRAMME-WISE RESOURCE ALLOCATION

Resources may be allocated according to:

- Programme priority
- Beneficiary requirement
- Project scale
- Geographic coverage
- Implementation capacity
- Approved budget
- Funding restrictions
- Expected outcomes

Priority should be given to activities that demonstrate clear programme relevance and measurable outcomes.

---

18. FUNDING AGREEMENT & SANCTION CONTROL

No funding should be treated as confirmed until the relevant:

- Approval
- Sanction
- Funding letter
- Grant agreement
- CSR approval

- MoU
- Project agreement
- Other applicable documentation

has been formally issued by the authorised funding organisation.

---

19. FINANCIAL MANAGEMENT

Mobilised resources shall be managed through appropriate financial controls covering:

- Budgeting
- Accounting
- Authorisation
- Expenditure control
- Documentation
- Bank transactions
- Reconciliation
- Utilisation tracking
- Financial reporting
- Audit

---

20. INTERNAL FINANCIAL CONTROLS

NCIE may maintain controls relating to:

- Segregation of responsibilities
- Approval hierarchy
- Budget controls
- Supporting documentation
- Payment authorisation
- Procurement controls
- Periodic reconciliation
- Financial review
- Internal monitoring

---

21. PROCUREMENT & RESOURCE UTILISATION

Where project resources are used for procurement, procedures should consider:

- Approved budget
- Need assessment
- Vendor selection
- Competitive procurement where appropriate
- Documentation
- Quality verification
- Asset recording
- Payment controls

Procurement shall comply with applicable funding-agreement and organisational requirements.

---

22. RESOURCE TRACKING & MIS

NCIE may maintain a digital Resource Mobilisation MIS covering:

- Funding opportunity
- Funding source
- Proposal status
- Amount requested
- Amount approved
- Amount received
- Project
- Institution
- Beneficiaries
- Utilisation
- Reporting status
- Renewal status

---

23. FUNDING STATUS CLASSIFICATION

To maintain transparency, funding opportunities may be classified as:

Pipeline

Potential opportunity identified.

Proposal Submitted

Formal proposal submitted for consideration.

Under Evaluation

Proposal under review by the funding organisation.

Approved

Formal approval received.

Sanctioned

Formal sanction / funding documentation received.

Received

Funds actually received.

Utilised

Funds utilised according to approved purposes.

This classification prevents **proposed funding from being represented as confirmed funding**.

24. RESOURCE MOBILISATION KPIs

Indicative KPIs include:

- Funding opportunities identified
- Proposals developed
- Proposals submitted
- Funding approvals
- Funds mobilised
- CSR partnerships
- Government opportunities pursued

- Industry partnerships
- Institutions supported
- Projects funded
- Non-financial resources mobilised
- Technology resources received
- Expert engagements
- Beneficiaries supported

---

25. THREE-LEVEL RESOURCE MOBILISATION MODEL

LEVEL 1 – PROGRAMME RESOURCES

Resources required for individual programmes.

↓

LEVEL 2 – INSTITUTIONAL RESOURCES

Resources required for colleges, universities and innovation ecosystems.

↓

LEVEL 3 – ECOSYSTEM RESOURCES

Large-scale partnerships involving Government, CSR, industry, investors, incubators and other ecosystem stakeholders.

---

26. RESOURCE DIVERSIFICATION STRATEGY

NCIE should seek to maintain a balanced resource portfolio:

GOVERNMENT PROGRAMMES

-

CSR

-

INDUSTRY

-

INSTITUTIONAL CONTRIBUTIONS

-

PHILANTHROPIC SUPPORT

-

PROGRAMME RESOURCES

-

KNOWLEDGE & TECHNOLOGY RESOURCES

-

ECOSYSTEM PARTNERSHIPS

↓

DIVERSIFIED & SUSTAINABLE RESOURCE BASE

---

27. FINANCIAL SUSTAINABILITY

Long-term sustainability may be strengthened through:

- Multi-year partnerships
- Recurring CSR programmes
- Institutional partnerships
- Strategic industry collaborations
- Sustainable programme models
- Cost-efficient digital delivery
- Resource sharing
- Institutional ownership
- Outcome-based programme expansion
- Diversified funding sources

---

28. RISK MANAGEMENT

Potential resource mobilisation risks include:

- Funding rejection
- Funding delays
- Dependency on one funding source
- Regulatory changes
- Budget shortfalls
- Partner withdrawal
- Cost escalation
- Implementation delays

Mitigation measures may include:

- Diversified funding sources
- Multiple project pipelines
- Contingency planning
- Strong documentation
- Regular financial monitoring
- Partner review
- Phased implementation

---

29. TRANSPARENCY & ACCOUNTABILITY

NCIE shall seek to ensure that:

- Funding claims are supported by documentation.
- Proposed funding is clearly distinguished from approved funding.
- Funding utilisation is properly recorded.
- Project expenditure is traceable.
- Partner requirements are followed.
- Reports are prepared appropriately.
- Government and CSR associations are represented accurately.

---

30. RESOURCE MOBILISATION GOVERNANCE

The resource mobilisation function may involve:

NCIE GOVERNANCE / AUTHORISED MANAGEMENT

↓

RESOURCE MOBILISATION FUNCTION

↓

PROGRAMME MANAGEMENT

↓

FINANCE & ACCOUNTS

↓

PROJECT IMPLEMENTATION TEAM

↓

MONITORING & REPORTING

Major funding arrangements should receive appropriate internal review and approval before commitment.

---

31. PARTNERSHIP-BASED RESOURCE MOBILISATION

NCIE may establish strategic resource partnerships with:

- Government and public institutions
- Colleges and universities
- Corporates
- CSR organisations
- Industry bodies
- Incubators
- Accelerators
- Investors
- Research organisations
- NGOs
- Foundations
- Technology organisations

The objective is to combine **financial, technical, institutional and knowledge resources**.

---

32. RESOURCE MOBILISATION IMPACT PATHWAY

IDENTIFY NEED

↓

DESIGN PROJECT

↓

MOBILISE RESOURCES

↓

IMPLEMENT PROGRAMME

↓

BUILD CAPACITY

↓

CREATE INNOVATION

↓

SUPPORT ENTREPRENEURSHIP

↓

STRENGTHEN INSTITUTIONS

↓

MEASURE IMPACT

↓

SCALE SUCCESSFUL MODELS

---

33. FRAMEWORK STATEMENT

The NCIE Funding & Resource Mobilisation Framework provides a structured approach for identifying, developing, mobilising and managing financial and non-financial resources required for innovation, entrepreneurship, skills, technology, youth development and institutional capacity-building programmes.

NCIE may directly mobilise resources where legally and operationally appropriate and may facilitate eligible institutions and stakeholders in identifying and accessing suitable Government, CSR, industry, philanthropic, institutional and ecosystem opportunities.

All funding figures, including indicative institutional support of ₹5 lakh–₹25 lakh, startup support of up to ₹5 lakh and potential investor connectivity of up to ₹25 crore, shall be treated as programme planning or facilitation frameworks unless and until formally approved, sanctioned, committed or invested by the concerned funding organisation, Government authority, CSR organisation or investor.

34. RESOURCE MOBILISATION MODEL

CONNECT → PROPOSE → MOBILISE → IMPLEMENT → MONITOR → REPORT → IMPACT → SCALE

The framework seeks to establish a sustainable resource ecosystem supporting the progression:

EDUCATION

→ SKILLS
→ INNOVATION
→ ENTREPRENEURSHIP
→ STARTUPS
→ INSTITUTIONAL DEVELOPMENT
→ EMPLOYMENT & ENTERPRISE
→ SOCIAL & ECONOMIC IMPACT

NCIE's resource mobilisation approach is intended to

strengthen the capacity of institutions, innovators, students and entrepreneurs to access appropriate resources and ecosystem opportunities while maintaining transparency, accountability and compliance.
