About NCIE:

National Council for Innovation & Entrepreneurship (NCIE)

Non-Governmental, Not-for-Profit Organisation:

NCIE is a non-governmental, not-for-profit organisation working to promote **innovation, entrepreneurship, leadership, skill development, digital transformation, and institutional capacity building** among students, youth, startups, entrepreneurs, and educational institutions.

Government & National Development Alignment

NCIE works in alignment with the broader national priorities of the **Government of India**, particularly in the areas of innovation, entrepreneurship, technology, MSME development, skill development, and youth empowerment.

NCIE seeks to establish and strengthen institutional and ecosystem-level engagement with relevant government departments, ministries, public institutions, industry bodies, corporates, academic institutions, and other stakeholders, including areas associated with:

- **Ministry of Corporate Affairs (MCA)** – corporate and institutional ecosystem development.
- **Ministry of Electronics & Information Technology (MeitY)** – digital technology, innovation, and emerging technology initiatives.
- **Ministry of Micro, Small & Medium Enterprises (MSME)** – entrepreneurship, MSME development, and enterprise creation.
- **Ministry of Skill Development & Entrepreneurship (MSDE)** – skill development, entrepreneurship education, and youth employability.

NCIE's programmes are designed to complement national priorities by creating opportunities for **students and young people to acquire practical skills, develop innovative ideas, explore entrepreneurship, and participate in India's emerging innovation ecosystem.**

Alignment with Viksit Bharat @2047

NCIE is aligned with the national vision of **Viksit Bharat @2047**, which envisages transforming India into a developed nation by **2047**, the centenary year of India's independence.

In this context, NCIE focuses on strengthening the capabilities of India's youth through **innovation, entrepreneurship, leadership, technology, skills, and institutional collaboration**.

Core National Development Values

NCIE's institutional approach is inspired by the broader national development principle:

“Sabka Saath, Sabka Vikas, Sabka Vishwas, Sabka Prayas”

Together with all, development for all, trust of all, and effort of all.

NCIE seeks to contribute to this vision by encouraging **inclusive participation, youth-led innovation, entrepreneurship, skill development, and collaborative efforts** towards India's long-term development.

NCIE Vision Document

NCIE's institutional vision and programme framework are intended to provide a structured roadmap for contributing to India's innovation and entrepreneurship ecosystem and supporting the aspirations of **Viksit Bharat @2047**

Vision & Mission

Our Vision

To build a **dynamic, inclusive, and innovation-driven ecosystem** that empowers students, youth, entrepreneurs, startups, and educational institutions to transform ideas into impactful solutions, enterprises, and opportunities, contributing to the vision of **Viksit Bharat @2047**.

NCIE envisions an India where **innovation, entrepreneurship, leadership, technology, and skills** become powerful instruments for inclusive economic and social development.

Our Mission

The mission of the **National Council for Innovation & Entrepreneurship (NCIE)** is to:

- **Promote Innovation** by encouraging creative thinking, problem-solving, research, and development of practical solutions.
- **Develop Entrepreneurial Skills** by providing structured learning, mentoring, training, and practical exposure.
- **Empower Youth** with leadership, communication, digital, professional, and employability skills.
- **Support Startups & Innovators** through idea development, validation, mentorship, incubation linkages, and ecosystem connections.
- **Strengthen Educational Institutions** by establishing innovation and entrepreneurship programmes, activities, and institutional frameworks.
- **Build Industry & Institutional Linkages** by connecting students and institutions with industry, experts, entrepreneurs, investors, and ecosystem stakeholders.
- **Encourage Technology Adoption** by promoting digital transformation and emerging technologies among students, institutions, and enterprises.
- **Promote Inclusive Entrepreneurship** by creating opportunities for diverse groups of young people to participate in India's innovation and entrepreneurial ecosystem.
- **Contribute to Viksit Bharat @2047** by nurturing a skilled, innovative, entrepreneurial, and responsible generation capable of contributing to India's long-term development.

Our Core Approach

Identify → Inspire → Innovate → Develop → Validate → Connect → Scale

NCIE follows an ecosystem-based approach that seeks to transform **ideas into innovation, innovation into entrepreneurship, and entrepreneurship into sustainable impact.**

Our Commitment

“Empowering Ideas. Enabling Innovation. Building Entrepreneurs. Contributing to Viksit Bharat.”

Key Objectives

The **National Council for Innovation & Entrepreneurship (NCIE)** is committed to building a strong and inclusive ecosystem for **innovation, entrepreneurship, leadership, skills, and youth development.** Its key objectives are:

1. Promote Innovation

Encourage students, youth, institutions, and innovators to identify problems, develop creative ideas, and create practical and technology-enabled solutions.

2. Develop Entrepreneurship

Build entrepreneurial knowledge, skills, and capabilities among students and young people through structured education, training, mentoring, and practical exposure.

3. Nurture Student Innovators

Identify and support promising student ideas through ideation programmes, innovation challenges, project development, mentoring, and validation opportunities.

4. Support Startups & Emerging Entrepreneurs

Facilitate access to mentorship, incubation linkages, industry networks, investors, and other appropriate ecosystem resources for promising ventures.

5. Strengthen Educational Institutions

Support colleges, universities, and other educational institutions in establishing and strengthening innovation, entrepreneurship, leadership, and skill-development activities.

6. Develop Youth Leadership

Promote leadership, communication, teamwork, decision-making, problem-solving, and professional skills among young people.

7. Promote Digital & Emerging Technologies

Encourage awareness and practical application of **Artificial Intelligence, digital technologies, web technologies, emerging technologies, and technology-driven entrepreneurship.**

8. Build Industry–Academia Linkages

Create meaningful connections between educational institutions, industry, entrepreneurs, professionals, experts, startups, and other stakeholders.

9. Encourage Skill Development & Employability

Provide opportunities for young people to develop industry-relevant technical, digital, professional, and entrepreneurial skills that improve their career readiness.

10. Promote Inclusive Entrepreneurship

Encourage participation in innovation and entrepreneurship opportunities among students and youth from diverse social and economic backgrounds.

11. Facilitate Idea-to-Enterprise Development

Create structured pathways through which promising ideas can progress from:

Ideation → Innovation → Prototype → Validation → Mentoring → Startup → Enterprise

12. Promote Research & Problem-Solving

Encourage research-oriented thinking and the development of solutions addressing real-world social, economic, technological, environmental, and community challenges.

13. Encourage Institutional Collaboration

Develop collaborations and institutional linkages with educational institutions, government-related programmes, industry bodies, corporates, professional organisations, incubators, investors, and other ecosystem stakeholders, subject to applicable agreements and approvals.

14. Contribute to Viksit Bharat @2047

Support India's long-term development vision by nurturing a generation of **innovative, skilled, entrepreneurial, responsible, and socially conscious young citizens** capable of contributing to India's development by 2047.

Objective Framework

Identify → Inspire → Train → Innovate → Validate → Mentor → Connect → Scale

NCIE seeks to create a continuous ecosystem in which **ideas are identified, talent is developed, innovations are validated, and promising entrepreneurial opportunities are connected with appropriate support systems.**

Major Initiatives:

Major Initiatives

The **National Council for Innovation & Entrepreneurship (NCIE)** is developing a national innovation and entrepreneurship ecosystem focused on students, young innovators, entrepreneurs, startups, and educational institutions. Its major initiatives are designed to provide opportunities for **learning, innovation, mentorship, funding, incubation, institutional development, and entrepreneurship.**

1. India's Largest Student Innovation Network

NCIE aims to build a national-level student innovation network connecting students from **schools, colleges, universities, and technical institutions** into a collaborative innovation ecosystem.

The initiative focuses on identifying young innovators from **urban, rural, and grassroots communities** and providing structured support, mentorship, innovation challenges, hackathons, incubation support, and pathways towards startups and social innovation.

2. Student Innovation & Development Programmes

NCIE's Student Section is designed to provide students with structured opportunities for **learning, exposure, practical experience, innovation, and career development**.

Key Programmes

- **Internships** – Industry-based and project-based practical learning opportunities.
- **Fellowships** – Advanced learning and mentorship opportunities involving experts, researchers, and mentors.
- **Hackathons** – Innovation challenges focused on solving real-world problems and developing prototypes.
- **Student Annual Scholarships** – Merit-based and need-based support intended to expand access to education and innovation opportunities.

3. Young Entrepreneurs & Startup Support

NCIE's Young Entrepreneurs Section focuses on supporting **aspiring entrepreneurs and early-stage startup founders** through financial assistance, mentorship, incubation guidance, and startup ecosystem support.

Key Initiatives

Student Startup Grants

Financial support for selected student entrepreneurs to develop and execute their startup ideas.

Startup Seed Funding – Up to ₹5 Lakh

A structured seed funding initiative providing eligible startups with support of up to **₹5,00,000**, subject to programme conditions and selection.

5-Stage Funding Model

Funding is proposed to be released in structured stages linked to progress, performance, and milestone completion.

Entrepreneurship Support

Mentorship, incubation guidance, legal and business support, product development assistance, and access to industry experts.

Employment Support

Support for team building, workforce development, and employment generation as startups grow.

4. Institutional Development & Incubation Support

NCIE's institutional initiative focuses on strengthening **educational institutions, universities, NGOs, and organisations** in developing innovation and startup ecosystems.

Institutional Development Fund

The DPR proposes dedicated funding support of **₹20 lakh to ₹50 lakh** for selected and recognised institutions for purposes including:

- Incubation centres
- Innovation laboratories
- Startup ecosystems
- Entrepreneurship infrastructure

The funding is intended specifically for institutional innovation and entrepreneurship infrastructure.

5. CSR Support for Rural & Semi-Urban Institutions

NCIE proposes facilitating CSR partnerships for institutions and organisations working to strengthen innovation in **rural and semi-urban areas**.

The initiative includes:

- Student startup development
- Capacity-building programmes
- Innovation activities
- Strengthening local innovation ecosystems

6. Innovation India Recognition Programme

The DPR proposes a recognition framework for institutions and organisations making significant contributions to:

- Innovation
- Entrepreneurship
- Student development
- Innovation ecosystem development

The objective is to encourage institutional excellence and participation at the national level.

7. Free Entrepreneurship Training Programmes

NCIE proposes supporting institutions in delivering **entrepreneurship education, skill-development workshops, and startup training programmes** for students.

The objective is to improve accessibility to entrepreneurship and innovation learning opportunities.

Vision 2047 Initiatives

Under its **Vision 2047**, NCIE proposes a long-term framework to develop a large-scale student innovation and entrepreneurship ecosystem connecting **education, industry, and startups**.

8. 10-Core Paid Internship Ecosystem

NCIE proposes a structured national internship framework covering **10 core sectors**:

1. Engineering & Technology
2. Science & Research
3. Commerce & Finance
4. Arts & Humanities
5. Agriculture & Rural Development
6. Healthcare & Life Sciences
7. Information Technology & AI
8. Social Innovation & Governance
9. Environment & Sustainability
10. Entrepreneurship & Startup Development

The proposed framework is intended to provide undergraduate students with practical, industry-oriented and skill-based learning opportunities.

9. Mass Student Startup Funding Programme

The DPR proposes a large-scale student startup funding programme with:

- **Proposed support:** ₹5,00,000 per startup
- **Proposed total allocation:** ₹1,000 crore
- **Proposed impact:** 20,000 student startups

The programme is intended to help students transform innovative ideas into scalable startups through financial and mentorship support.

10. ₹1,000 Crore Student Innovation Support Fund

The DPR proposes a dedicated **₹1,000 crore Student Innovation Support Fund** for:

- Student innovation projects
- Entrepreneurship development
- Incubation programmes
- Research and prototyping activities

The proposed fund is intended to provide sustained financial support for youth-led innovation.

11. ₹1,000 Crore Institutional Development Fund

A parallel **₹1,000 crore Institutional Development Fund** is proposed to support educational institutions and organisations in developing:

- Incubation centres
- Innovation labs
- Startup ecosystems
- Entrepreneurship Development Cells

The long-term objective is to strengthen institutions as centres of innovation excellence.

NCIE 2047 Outcome

By 2047, the DPR envisions:

- A connected national student innovation network
- Millions of skilled, job-ready, and startup-ready youth
- More than 20,000 successful student-led startups
- Strong and sustainable institutional innovation ecosystems
- A self-reliant, innovation-driven economy powered by youth

NCIE Vision 2047

“To transform India into the world’s largest student innovation and entrepreneurship ecosystem, where every student has access to opportunity, funding, mentorship, and a clear pathway from idea to impact—building a nation driven by creativity, innovation, and self-reliance.”

Programmes & Activities

NCIE conducts structured programmes and activities designed to help students and young innovators progress from **learning and innovation to entrepreneurship, startup development, funding, and institutional ecosystem support.**

Programme 1: NCIE Viksit Bharat Innovation Leadership Programme

Student Innovation & Entrepreneurship Development Programme

The **NCIE Viksit Bharat Innovation Leadership Programme** is a structured programme for students designed to introduce participants to **student innovation, entrepreneurship, leadership, problem-solving, and startup development.**

The programme aims to help students understand how innovative ideas can be developed into practical solutions and entrepreneurial opportunities.

Programme Highlights

- **Duration:** 60 Days
- **Learning:** 60 Hours
- **Mode:** Hybrid / structured learning
- **Certificate:** Certificate of Completion
- **Programme Fee:** ₹700/-
- **Target Group:** Students and young innovators

Key Learning Areas

- Student Innovation
- Entrepreneurship
- Leadership Development
- Problem Identification & Solving
- Ideation & Innovation
- Startup Awareness
- Digital & Emerging Technologies
- Business & Entrepreneurial Thinking
- Idea Development
- Innovation-to-Startup Pathways

The programme is designed to provide students with a foundation in **innovation and entrepreneurship** and prepare eligible participants for further opportunities within the NCIE ecosystem.

Programme 2: Dr. A.P.J. Abdul Kalam Startup Validation Programme

From Student Innovation to Startup Validation

Students and innovators who develop promising ideas through the innovation and entrepreneurship ecosystem may progress to the **Dr. A.P.J. Abdul Kalam Startup Validation Programme**.

The programme focuses on helping selected ideas move towards **validation, startup development, mentorship, and entrepreneurial readiness**.

Key Components

- Idea evaluation
- Problem–solution validation
- Business model development
- Startup mentoring
- Product and solution development
- Pitch preparation
- Startup ecosystem exposure
- Investor and incubation linkages

Student Startup Grant

Eligible selected student innovators may receive a **startup grant of up to ₹5,00,000**, subject to the programme's selection criteria, approval process, milestones, and applicable terms.

The objective is to help promising student ideas progress from **concept to validated startup**.

Programme 3: Investor & Startup Growth Linkages

After validation and development, promising startups may be connected with appropriate **investors, industry stakeholders, incubators, mentors, and other ecosystem participants**.

For suitable and investment-ready ventures, NCIE aims to facilitate opportunities for investment discussions and growth support, with potential investment opportunities **up to ₹25 crore**, subject to investor interest, due diligence, valuation, eligibility, and applicable investment terms.

Important: Investment is not guaranteed and depends on the independent decision of investors.

Programme 4: Institutional Innovation & CSR Support

NCIE also works towards strengthening innovation ecosystems within educational institutions and organisations.

Eligible institutions may be considered for **institutional development and CSR-linked support**, including support for:

- Innovation Centres
- Incubation Centres
- Innovation Labs
- Entrepreneurship Development Cells
- Student Startup Ecosystems
- Skill and Entrepreneurship Programmes
- Capacity Building
- Rural and Semi-Urban Innovation Development

Institutional Funding

As described in the NCIE DPR, institutional development support is proposed in the range of **₹20 lakh to ₹50 lakh** for selected institutions, subject to eligibility, assessment, approval, funding availability, and applicable terms.

NCIE Student-to-Startup Pathway

60-Day Innovation Leadership Programme

Student Innovation & Ideation

Dr. A.P.J. Abdul Kalam Startup Validation Programme

Startup Grant – Up to ₹5 Lakh*

Mentorship & Incubation Support

Investor & Industry Linkages

Potential Investment Opportunities – Up to ₹25 Crore*

Startup Growth & Scale

Institutional Pathway

Institutional Assessment

Innovation & Entrepreneurship Development

Incubation / Innovation Infrastructure

CSR & Institutional Support – ₹20–₹50 Lakh

Sustainable Institutional Innovation Ecosystem

Funding and investment figures represent programme proposals/opportunities and are subject to eligibility, selection, approval, due diligence, availability of funds, investor decisions, and applicable programme terms.

Government & Policy Alignment

The National Council for Innovation & Entrepreneurship (NCIE) is an independent, non-governmental organisation working to promote innovation, entrepreneurship, youth development, skill development, technology adoption, and institutional capacity building.

NCIE's programmes and initiatives are designed to contribute to broader national development priorities and the vision of building a strong, innovative, skilled, entrepreneurial, and self-reliant India.

Alignment with National Priorities

NCIE's areas of work are aligned with national priorities relating to:

- Innovation and research
- Entrepreneurship and startup development
- Youth empowerment
- Skill development and employability
- Digital transformation
- Artificial Intelligence and emerging technologies
- MSME and enterprise development
- Industry–academia collaboration
- Institutional innovation ecosystems
- Rural and grassroots innovation
- Sustainable and inclusive development

Government of India – Policy Alignment

NCIE's programme areas are relevant to the objectives and areas of work associated with various Government of India ministries and departments, including:

Ministry of Corporate Affairs (MCA)

NCIE's entrepreneurship and institutional initiatives are relevant to the broader corporate and enterprise ecosystem, including awareness of entrepreneurship, organisational development, and responsible institutional practices.

Ministry of Electronics & Information Technology (MeitY)

NCIE promotes digital skills, Artificial Intelligence, technology-based innovation, digital entrepreneurship, and emerging technology awareness among students and young innovators.

Ministry of Micro, Small & Medium Enterprises (MSME)

NCIE's entrepreneurship and startup-oriented activities support the broader objectives of enterprise creation, entrepreneurship development, youth-led ventures, and MSME ecosystem participation.

Ministry of Skill Development & Entrepreneurship (MSDE)

NCIE's student programmes, entrepreneurship training, leadership development, practical learning, and employability initiatives align with the broader national focus on **skill development and entrepreneurship**.

Viksit Bharat @2047

NCIE's long-term vision is aligned with the broader national aspiration of **Viksit Bharat @2047**, with particular emphasis on developing India's youth as:

Skilled • Innovative • Entrepreneurial • Technology-Enabled • Responsible

NCIE seeks to contribute by creating opportunities for students and young innovators to develop ideas, acquire skills, explore entrepreneurship, and participate in innovation-driven development.

National Development Approach

NCIE's ecosystem follows the pathway:

Education → Skills → Innovation → Entrepreneurship → Startup → Employment → Economic & Social Impact

Through this approach, NCIE seeks to strengthen connections between **students, educational institutions, innovators, entrepreneurs, startups, industry, experts, investors, and other ecosystem stakeholders.**

Government Collaboration & Institutional Engagement

NCIE may undertake institutional engagement, programmes, collaborations, MoUs, partnerships, and other forms of cooperation with government departments, public institutions, educational institutions, industry bodies, corporates, and other stakeholders, subject to applicable approvals and agreements.

Transparency Statement:

Policy alignment with a Government of India ministry or national initiative should not be interpreted as a formal government partnership, approval, endorsement, or affiliation unless supported by a specific official document, MoU, sanction order, notification, or other competent-authority record.

Our National Commitment

**Innovation • Entrepreneurship • Skills • Youth Empowerment •
Institutional Development • Viksit Bharat @2047**

Documents to upload

1. **NCIE DPR / Detailed Project Report**
 - Organisation overview

 - Programme guidelines / brochure
 - Funding and selection guidelines
- 5. **Government of India Official Policy Documents**

If you want to mention **MCA, MeitY, MSME and MSDE**, upload the relevant official documents showing the policies or schemes that NCIE is aligning with.

- 6. **Official document supporting the Prime Minister / Independence Day / Vande Mataram reference**

This is especially important if you want the website to say that the **Hon'ble Prime Minister released, launched, referred to, or endorsed an NCIE document**. We should only make that statement if the official document proves it.

Institutional Collaborations

NCIE seeks to build a strong **institutional and ecosystem-based collaboration network** to promote innovation, entrepreneurship, skill development, startup development, and youth empowerment across India.

Through institutional collaborations, NCIE aims to connect **students, educational institutions, universities, NGOs, organisations, industry experts, entrepreneurs, startups, CSR stakeholders, mentors, incubators, and other ecosystem participants**.

Educational Institutions

NCIE works towards collaboration with:

- Schools
- Colleges
- Universities
- Technical institutions

- Professional institutions
- Research and academic institutions

The objective is to establish and strengthen institutional programmes for **innovation, entrepreneurship, internships, hackathons, fellowships, skill development, startup development, and student engagement.**

Universities & Academic Institutions

NCIE seeks to support universities and academic institutions in developing stronger innovation and entrepreneurship ecosystems through:

- Innovation programmes
- Entrepreneurship development
- Student startup activities
- Incubation support
- Research and prototyping
- Innovation challenges
- Capacity-building programmes

NGOs & Social Organisations

NCIE seeks to engage with NGOs and social organisations to promote **grassroots innovation, youth development, entrepreneurship, and social innovation**, particularly in rural and semi-urban communities.

Industry & Corporate Ecosystem

NCIE aims to create linkages with industry and corporate stakeholders to provide students and innovators with:

- Industry exposure
- Mentorship
- Practical learning
- Expert interactions
- Technology exposure
- Startup ecosystem opportunities
- Employment and entrepreneurship linkages

CSR Collaborations

NCIE facilitates opportunities for CSR-oriented collaboration for eligible institutional and community innovation initiatives.

The DPR specifically identifies CSR partnerships as an avenue for supporting **rural and semi-urban institutional development, student startup development, capacity building, and local innovation ecosystems.**

Incubators, Mentors & Startup Ecosystem

NCIE seeks to connect promising innovators and startups with appropriate:

- Incubation centres
- Mentors
- Industry experts
- Entrepreneurs
- Startup ecosystem organisations
- Investors
- Business and professional support networks

These linkages are intended to help promising ideas progress from **ideation and innovation to validation, startup development, and growth.**

Institutional Development Partnerships

NCIE proposes institutional development and incubation support for selected institutions to establish or strengthen:

- Incubation Centres
- Innovation Labs
- Startup Ecosystems
- Entrepreneurship Development Cells

The NCIE DPR proposes institutional support in the range of **₹20 lakh to ₹50 lakh** for selected and recognised institutions, subject to applicable eligibility, assessment, approval, and funding conditions.

Collaboration Model

NCIE

Educational Institutions & Universities

National Council for Innovation & Entrepreneurship (NCIE)

Innovation • Entrepreneurship • Leadership • Skills • Startups

Official Website: ncieindia.org

Official Email: office@ncieindia.org

ABOUT NCIE

Overview

The **National Council for Innovation & Entrepreneurship (NCIE)** is an independent national-level organisation focused on fostering **innovation, entrepreneurship, and startup development** across India.

NCIE focuses on identifying and nurturing **young innovators, students, and grassroots entrepreneurs** by providing platforms, mentorship, guidance, exposure, and ecosystem support to help transform innovative ideas into practical solutions and startups.

The organisation aims to strengthen innovation at the grassroots level by reaching **rural and urban youth** and encouraging a problem-solving mindset focused on practical and scalable solutions to real-world societal challenges.

NCIE seeks to bridge the gap between **ideas and implementation** by providing early-stage innovators with opportunities for guidance, mentorship, exposure, collaboration, incubation, and entrepreneurial development.

Our Focus

Innovation | Entrepreneurship | Startups | Youth | Skills | Leadership | Institutional Development

NCIE's broader vision is to develop an innovation-driven ecosystem in which students and young people can progress from **idea to innovation, innovation to startup, and startup to sustainable impact**.

The NCIE DPR further outlines a long-term vision for a connected national student innovation and entrepreneurship ecosystem, linking **educational institutions, industry, and startups**.

Who We Serve

NCIE's ecosystem is intended to support:

- Students
- Young innovators
- Young entrepreneurs
- Startup founders
- Schools, colleges and universities
- Technical and professional institutions
- NGOs and organisations

- Industry and ecosystem stakeholders

Our Approach

Identify → Inspire → Innovate → Mentor → Validate → Incubate → Connect → Scale

Through this approach, NCIE seeks to create opportunities for young people to become **innovators, entrepreneurs, leaders, and contributors to India's development**.

Establishment & Background

Establishment

The **National Council for Innovation & Entrepreneurship (NCIE)** is an independent national-level organisation working in alignment with relevant **national development priorities of the Government of India** and the broader vision of **Viksit Bharat @2047**.

NCIE is dedicated to strengthening India's ecosystem for **innovation, entrepreneurship, startup development, youth empowerment, skill development, and institutional capacity building**.

Its institutional framework is designed to create structured opportunities for **students, young innovators, entrepreneurs, startups, and educational institutions** to participate in innovation-led development.

NCIE seeks to contribute to the national development journey by facilitating a coordinated ecosystem connecting:

Students → Educational Institutions → Innovators → Entrepreneurs → Startups → Industry → CSR Stakeholders → Mentors → Investors

Background

India has a large and diverse base of students and young people with significant potential to contribute to innovation and entrepreneurship.

NCIE's approach is designed to bridge the gap between **innovative ideas and practical implementation** by providing early-stage innovators with appropriate

opportunities for guidance, mentorship, exposure, collaboration, skill development, and ecosystem support.

The organisation places particular emphasis on reaching **rural and urban youth**, encouraging a problem-solving mindset and promoting practical and scalable solutions to real-world societal challenges.

Institutional Development

NCIE's long-term framework envisages a connected national innovation ecosystem bringing together:

Students → Educational Institutions → Innovators → Entrepreneurs → Startups → Industry → Ecosystem Partners

The NCIE vision proposes connecting **education, industry, and startups** through a unified innovation and entrepreneurship ecosystem.

CSR & Institutional Network

As part of its broader ecosystem development, NCIE has established a network of **800+ CSR partners and CSR ecosystem stakeholders**, supporting opportunities in innovation, entrepreneurship, youth development, institutional development, and social-impact initiatives.

The network is intended to facilitate connections between:

Educational Institutions → Students → Innovators → Startups → Organisations → CSR Stakeholders

The CSR and institutional network can support initiatives including:

- Student innovation and entrepreneurship
- Startup and skill-development initiatives
- Institutional innovation infrastructure
- Innovation laboratories and incubation facilities
- Rural and semi-urban development
- Capacity-building programmes
- Youth empowerment initiatives
- Social-impact and community development projects

800+ CSR Network

800+ CSR Partners & Ecosystem Connections

Students → Institutions → Innovation → CSR Support → Startups → Social Impact

Funding & Resource Mobilisation

NCIE seeks to mobilise substantial resources through **CSR partnerships, institutional collaborations, industry participation, philanthropic support, programme-based funding, and other permissible funding channels.**

₹12,000+ Crore Annual Resource Mobilisation Target

NCIE's broader long-term funding framework envisages **₹12,000+ crore in annual resource mobilisation**, together with additional resources from other eligible channels.

The objective is to direct financial and ecosystem resources towards programmes and projects that create tangible opportunities for:

- Students
- Educational institutions
- Innovators
- Entrepreneurs
- Startups
- Communities

Direct Contribution to Students & Institutions

The core objective of NCIE's resource mobilisation is to convert financial and ecosystem resources into **direct developmental opportunities for students and educational institutions.**

Funding & Resources → Students → Skills → Innovation → Institutions → Startups → Investment → Employment → National Development

The NCIE framework also proposes dedicated financial support for student innovation and institutional development, including funding for **innovation projects, entrepreneurship development, incubation, research, prototyping, innovation laboratories, incubation centres, startup ecosystems, and Entrepreneurship Development Cells.**

National Development Contribution

NCIE seeks to ensure that resources mobilised through its ecosystem contribute towards the development of **students, institutions, innovators, startups, and young entrepreneurs.**

Through this approach, NCIE seeks to strengthen:

Education → Skills → Innovation → Entrepreneurship → Startups → Investment → Employment → Social & Economic Impact

These efforts are intended to contribute to the development of a **skilled, innovative, entrepreneurial, technology-enabled, and self-reliant generation of young Indians**, supporting the broader vision of **Viksit Bharat @2047**.

National Vision

NCIE's long-term direction is focused on developing a strong, innovation-driven ecosystem that empowers young people to become **problem-solvers, innovators, entrepreneurs, and leaders**.

The organisation's Vision 2047 framework aims to contribute to a national ecosystem in which students have access to **opportunity, funding, mentorship, and a clear pathway from idea to impact**.

Institutional Ecosystem

NCIE's broader ecosystem is designed around the following pathway:

Education → Skills → Innovation → Entrepreneurship → Startup → Investment → Employment → Social & Economic Impact

This approach seeks to connect young talent with institutions, mentors, industry, CSR stakeholders, incubation ecosystems, investors, and other appropriate support systems required for innovation-led development.

Contribution to Viksit Bharat @2047

NCIE seeks to contribute to India's long-term development by creating opportunities for young people to **learn, innovate, build enterprises, generate employment, and address real-world challenges**.

The long-term vision is to develop a connected student innovation and entrepreneurship ecosystem in which **education, industry, startups, institutions, and youth** work together towards national development.

Transparency & Verification

NCIE is committed to maintaining transparency in the presentation of its institutional network, partnerships, programmes, and financial/resource-mobilisation framework.

CSR Network

The stated **800+ CSR Partners** figure should be supported by appropriate documentation, partnership records, MoUs, institutional correspondence, or a verifiable CSR partner/network database.

Resource Mobilisation

The stated **₹12,000+ crore annual resource mobilisation** represents a **target/proposed resource-mobilisation figure** unless and until documentary evidence establishes that such resources have actually been mobilised annually.

Accordingly, the figure should not be represented as **funds already received, guaranteed funding, or confirmed annual expenditure** unless supported by appropriate financial documentation, including applicable agreements, sanction orders, funding records, audited statements, or other verifiable evidence.

Institutional Status

Detailed information regarding NCIE's **date of establishment, registration/constitution, founding authority, legal status, governance structure, and institutional framework** should be published on the basis of corresponding official documentation.

NCIE's government-policy alignment should likewise be distinguished from any **formal government partnership, approval, endorsement, affiliation, or statutory status**, which should only be stated where supported by an appropriate official document.

Commitment to Transparency

NCIE seeks to maintain a transparent distinction between:

Established Facts → Formal Partnerships → Proposed Initiatives → Funding Targets → Long-Term Vision

This approach is intended to provide students, institutions, partners, CSR stakeholders, and the public with clear and reliable information about NCIE and its activities.

Objectives & Mandate

Our Objectives

The **National Council for Innovation & Entrepreneurship (NCIE)** works to strengthen India's innovation and entrepreneurship ecosystem by creating structured opportunities for **students, young innovators, entrepreneurs, startups, educational institutions, and grassroots talent**.

NCIE's objectives are focused on building a pathway from **learning and innovation to entrepreneurship, startup development, and sustainable impact**.

01. Promote Innovation

Encourage creativity, innovative thinking, research-oriented problem-solving, and the development of practical solutions to real-world challenges.

02. Nurture Young Innovators

Identify and support promising **students, young innovators, and grassroots entrepreneurs** through structured programmes, mentorship, guidance, exposure, and ecosystem opportunities.

03. Promote Entrepreneurship

Develop entrepreneurial knowledge, skills, leadership capabilities, and an entrepreneurial mindset among students and young people.

04. Support Startup Development

Create pathways for promising ideas to progress from **ideation and innovation to validation, startup development, incubation, and growth**.

05. Bridge Ideas with Implementation

Help transform innovative ideas into practical solutions by providing access to **guidance, mentorship, technical support, collaboration, and relevant ecosystem resources**.

06. Encourage Grassroots & Inclusive Innovation

Promote participation from **rural, urban, and grassroots communities** and encourage innovative solutions addressing real-world social and economic challenges.

07. Strengthen Educational Institutions

Support schools, colleges, universities, technical institutions, and other eligible organisations in developing stronger **innovation, entrepreneurship, incubation, and startup ecosystems**.

08. Facilitate Mentorship & Ecosystem Linkages

Connect students, innovators, entrepreneurs, and startups with appropriate **mentors, experts, industry stakeholders, incubators, investors, and ecosystem partners**.

09. Develop Innovation Infrastructure

Encourage the establishment and strengthening of **innovation laboratories, incubation centres, startup ecosystems, and Entrepreneurship Development Cells** within eligible institutions.

10. Connect Education, Industry & Startups

Promote an integrated ecosystem connecting:

Education → Innovation → Entrepreneurship → Startups → Industry → Investment → Impact

Institutional Mandate

NCIE's mandate is to contribute to the development of a **strong, inclusive, innovation-driven and entrepreneurship-oriented ecosystem** by creating opportunities for young people and institutions to participate in innovation-led development.

The mandate includes:

- Identifying and nurturing promising student and youth talent.
- Promoting innovation, creativity, and problem-solving.
- Providing structured learning and development opportunities.
- Facilitating mentorship and expert guidance.
- Promoting innovation challenges, hackathons, internships, fellowships, and related activities.
- Encouraging student entrepreneurship and startup development.
- Supporting institutional innovation and incubation ecosystems.
- Facilitating appropriate industry and ecosystem linkages.
- Promoting rural, urban, and grassroots innovation.

- Supporting the progression of ideas from **concept to innovation and innovation to enterprise**.
 - Encouraging the development of skilled, innovative, entrepreneurial, and responsible youth.
-

NCIE Development Framework

NCIE follows an ecosystem-based development pathway:

IDENTIFY

INSPIRE

BUILD SKILLS

INNOVATE

MENTOR

VALIDATE

INCUBATE

CONNECT

BUILD ENTERPRISES

CREATE IMPACT

This framework is designed to help young innovators progress from **initial ideas and learning opportunities towards innovation, entrepreneurship, startup development, and sustainable impact**.

Long-Term Objective

NCIE seeks to contribute to the development of a **connected national student innovation and entrepreneurship ecosystem** in which students and young innovators can access appropriate opportunities for:

Skills • Innovation • Mentorship • Entrepreneurship • Incubation • Institutional Support • Funding Pathways • Industry Linkages

The long-term objective is to strengthen connections between **students, educational institutions, innovators, entrepreneurs, startups, industry, CSR stakeholders, mentors, investors, and other ecosystem participants.**

Contribution to Viksit Bharat @2047

Through its innovation and entrepreneurship ecosystem, NCIE seeks to contribute to the development of a **skilled, innovative, entrepreneurial and technology-enabled generation of young Indians.**

The intended pathway is:

Students → Skills → Innovation → Entrepreneurship → Startups → Employment → Social & Economic Impact → National Development

Our Objective

To create pathways that enable young Indians to learn, innovate, build enterprises, create opportunities, and contribute meaningfully to India's development journey towards Viksit Bharat @2047.

COLLABORATIONS & PARTNERSHIPS

Building a Strong Innovation & Entrepreneurship Ecosystem

The National Council for Innovation & Entrepreneurship (NCIE) seeks to build meaningful institutional partnerships with government bodies, educational institutions, industries, startups, research organizations, NGOs and other ecosystem stakeholders.

Through strategic collaborations, NCIE aims to promote innovation, entrepreneurship, leadership, skill development, research, technology adoption and social impact among students, youth, entrepreneurs and communities.

1. Government Institutions & Departments

NCIE works towards institutional engagement with government departments, agencies, missions and public institutions to support national and state-level

priorities in innovation, entrepreneurship, skill development, youth development and inclusive growth.

Areas of Collaboration:

- Innovation and entrepreneurship programmes
- Youth and skill development
- Government-supported initiatives
- Innovation challenges and competitions
- Capacity-building programmes
- Social development initiatives
- Policy and ecosystem development

2. Educational Institutions & Universities

NCIE collaborates with universities, colleges, schools and academic institutions to establish innovation and entrepreneurship activities within educational ecosystems.

Areas of Collaboration:

- Student innovation programmes
- Entrepreneurship development
- Leadership programmes
- Workshops and training
- Faculty development
- Innovation challenges
- Startup awareness and mentoring
- Career and skill development

3. Industry & Corporate Partnerships

NCIE encourages partnerships with industries, companies and corporate organizations to bridge the gap between education, innovation and industry requirements.

Areas of Collaboration:

- Industry mentorship
- Corporate training
- CSR-supported programmes
- Technology and knowledge sharing
- Internship and exposure opportunities
- Entrepreneurship support

- Industry-academia initiatives

4. Startups & Innovation Ecosystem

NCIE aims to connect aspiring entrepreneurs and innovators with startups, incubators, accelerators, mentors and other ecosystem stakeholders.

Areas of Collaboration:

- Startup mentoring
- Idea validation
- Innovation challenges
- Incubation support
- Investor and industry connect
- Entrepreneurship programmes
- Prototype and product development

5. Research & Development Institutions

NCIE promotes collaboration with research institutions and innovation centres to encourage applied research, technology development and knowledge exchange.

Areas of Collaboration:

- Research projects
- Technology development
- Innovation labs
- Knowledge exchange
- Research-to-market initiatives
- Student research programmes

6. NGOs & Social Organizations

NCIE welcomes partnerships with credible NGOs and social organizations working in education, youth development, livelihood, social welfare, innovation and community development.

Areas of Collaboration:

- Community development
- Youth empowerment
- Educational initiatives
- Entrepreneurship training

- Livelihood development
- Social innovation
- Community-based innovation programmes

7. Incubators, Accelerators & Innovation Hubs

NCIE seeks to connect students, innovators and entrepreneurs with incubation and acceleration ecosystems.

Potential Activities:

- Startup incubation
- Mentoring
- Business model development
- Pitch preparation
- Prototype development
- Investor readiness
- Innovation challenges

8. International & Global Partnerships

NCIE may explore suitable international institutional partnerships for knowledge exchange, innovation, entrepreneurship, research and global exposure, subject to applicable requirements and approvals.

9. MoUs & Institutional Partnerships

This section presents formal institutional partnerships established by NCIE with eligible organizations.

Website fields for each partnership:

- Partner/Institution Name
- Organization Type
- Collaboration Area
- Date of MoU/Partnership
- Duration
- Key Objectives
- Major Activities
- Current Status
- Official Document / MoU

Partnership With NCIE

Organizations interested in collaborating with NCIE may submit a partnership proposal outlining their institutional profile, proposed areas of collaboration and expected outcomes.

Suggested Website Buttons:

[Become a Partner]

[Submit Collaboration Proposal]

[View MoUs]

[View Partner Institutions]

Important Website Note

Only display organizations as **“Partners,” “Collaborators,” or “MoU Partners”** after the relevant collaboration has been formally established and documented. For organizations where discussions are only proposed or ongoing, use terms such as **“Proposed Collaboration,” “Under Discussion,” or “Potential Partnership.”**

- Past events & reports

★ Add one important feature

At the top of the page, put:

“START YOUR INNOVATION JOURNEY”

Submit Idea → Evaluation → Validation → Mentorship → Prototype → Incubation → Funding → Investor Connect → Market Launch

★ Most important page

I recommend creating a “Startup Journey” visual:

SUBMIT IDEA → SCREENING → VALIDATION → MENTORSHIP → PROTOTYPE → INCUBATION → FUNDING → INVESTOR CONNECT → MARKET/SCALING
